Workshops for our youngest audience, after school hours in small groups. Our talented artists focus on the history of art, various medium and material and guide children create a masterpiece.

Know Your Art® is a sole proprietary firm that was founded in 2015. Our team is led by mum and art director Rishita Chandra, who has worked with various publishing houses in the print industry. Our workshops are guided by an expert artist from the prestigious J.J. School of Arts alongwith an art aficionado to guide the conversation.

At Know Your Art® we believe in building experiences and products that light up a curious and creative mind. We curate and conduct hands-on art events for special occasions at several venues and now in the digital space as well!

WORKSHOP DURATION
